Tomorrow's Answers Today

**subject: Eco Premium UV coatings**

Akzo Nobel UV coating products are 100% solids and increasingly steering our innovation towards the development of what we call eco-premium solutions (EPS). We define these as products that offer a significant sustainability advantage compared with commonly available equivalent products.

The ingredients used in our eco-premium UV coating products supplied to PCS Wood for LPM timber veneer panels do not contain the following compounds

- Alkylphenols
- Asbestos
- Bisphenol A (BPA)
- Cadmium
- Chlorinated Polyethylene and Chlorosulfonated Polyethylene
- Chlorobenzenes
- Chlorofluorocarbons (CFCs)
- Hydrochlorofluorocarbons (HCFCs)
- Chloroprene (Neoprene)
- Chromium VI
- Chlorinated Polyvinyl Chloride (CPVC)
- Formaldehyde (added)
- Halogenated Flame Retardants (HFRs)
- Lead
- Mercury
- Polychlorinated Biphenyls (PBCs)
- Perfluorinated Compounds (PFCs)
- Phthalates
- Polyvinyl Chloride (PVC)
- Polyvinylidene Chloride (PVDC)
- Short Chain Chlorinated Paraffins
- Volatile Organic Compounds (VOCs) in wet applied products – 100% solids
